

# Frequency Freedom™ Technology...

Think outside the band.

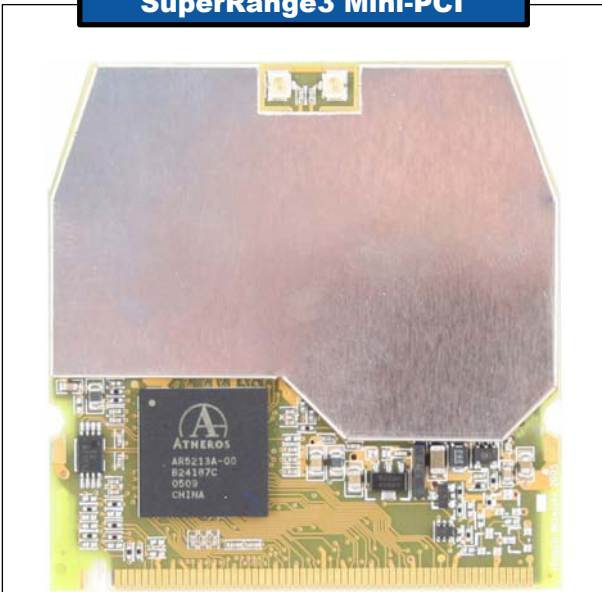

**108Mbps** **1000mW RF POWER** **ANY FREQUENCY**

Introducing Frequency Freedom technology. A patent pending integrated radio technology from Ubiquiti Networks which transforms 802.11 silicon into a modular, powerful, state of the art radio platform capable of operation in any frequency imaginable. Think outside the band.

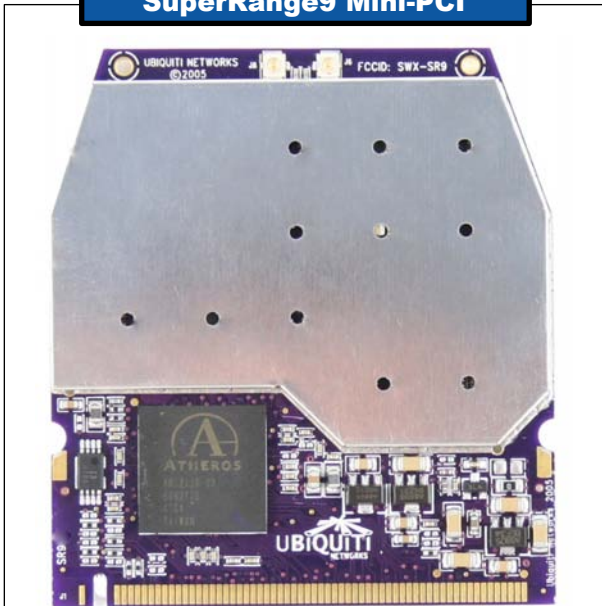

**SuperRange3 Mini-PCI**

- FEATURES**
- Operates in new FCC unlicensed 3.65-3.7 GHz Band.
  - Up to 400mW RF output power and 108 Mbps data rate
  - Atheros MADWIFI compatible

**SuperRange9 Mini-PCI**

- FEATURES**
- Astonishing 900 MHz range performance
  - Up to 1000mW RF output power and 54 Mbps data rate
  - Atheros MADWIFI compatible
